Heather Greene

The beauty and majesty of Northern California have captured my heart and imagination. I feel extremely lucky to have grown up in this area on this lake. This place has always been one of my biggest inspirations.

I love to create using several different water based mediums. Watercolor is my favorite because of it's transparency, flow and sometimes unexpected results.

My subject matter ranges depending on my mood and/or whether or not I am inspired by my surroundings. I express my youth with vibrant upbeat, what I call "Organic Abstract", watercolor paintings. My other favorite way to paint is outdoors, or *en plein air*. There is something special and magical about being at a beautiful place capturing and taking in nature, stroke by stroke.

I have been fortunate to learn from and even work for other artists throughout my life. It all started when I worked for Deb Groesser, I was 14. Currently, I am motivated to inspire and teach our youth where I am utilizing my graphic design background. I get to teach classes like yearbook at my old high school! I have been involved with Plumas Arts Commission and Feather River Arts Guild for several years, and now I am a proud member of the Blue Goose Gallery of Artists.
